

EXACTRAIL™

The *Next Generation*
of Model Railroading

The one that started it all.

As the *first-ever* to tool an N-scale PS-2CD 4000, ExactRail brings the car which set the stage for massive fleets of covered hoppers through the 70's and 80's

Fine scale, brass details

Precision micro-tooled in the U.S.

Etched metal roof walks

New Products! ExactRail continues to produce more *all-new* cars than anyone in the industry.
